

PETER ANDREW NOVA

WEBSITE DEVELOPER

Bicol Region, Philippines | peternovaloyola123@gmail.com | 091622299853

PROFESSIONAL SUMMARY

Full-stack and mobile application developer with experience building responsive web and mobile solutions using Flutter, Dart, React, Supabase, and WordPress. Contributed as a full-stack developer for the SDO Legazpi City website, developing and maintaining features using WordPress, HTML, CSS, and JavaScript. Skilled in creating clean UI designs, integrating APIs, and developing user-focused applications. Passionate about building scalable digital solutions and continuously improving through new technologies.

PROFESSIONAL SKILLS

- Proficient in JavaScript, Dart, HTML, and CSS for building modern web and mobile applications.
- Experienced with React.js, Tailwind CSS, Flutter, Supabase, Firebase, and WordPress for frontend, backend, database, and CMS development.
- Skilled in Git, GitHub, VS Code, Vite, and Vercel for version control, development, and deployment workflows.

PROJECTS

ProSSet – Profit Analyzer & Ground Asset Control System	2024-2025
• Developed a Flutter and Firebase business management application for small and medium enterprises to track profits, expenses, tax calculations, and asset records. Built authentication, database integration, and financial dashboards to help business owners monitor and manage their operations.	
SDO Legazpi City Official Website	2026
• Redeveloped the organization's website from Google Sites to WordPress to improve content management and website flexibility. Customized layouts, created responsive designs, and implemented features using WordPress, HTML, CSS, and JavaScript.	
PowerMags Gym Management System	2026
• Created a gym management system to simplify staff operations by organizing member records, payments, attendance, and reports into a centralized digital platform.	

PROFESSIONAL EXPERIENCE

Web Developer Intern (OJT)	2026
DepEd SDO Legazpi City February 2026 – June 2026	
• Redeveloped the organization's website from Google Sites to WordPress, creating a more flexible platform for managing official content. Customized layouts, implemented responsive designs, and developed website features using WordPress, HTML, CSS, and JavaScript.	

EDUCATION

Bachelor of Science in Information Technology	2022 - 2026
STI College Legazpi	
• Relevant coursework: Database Management Systems, Web & Mobile Development, Software Engineering, Computer Networks, Project Management, Information Security.
